

**Public Outreach Briefing
SERC Meeting
Monday, January 13, 2003**

The following are projections for 2003

1. Design, development, and distribution of materials addressing the identification and hazards inherent to Meth Labs in Washington State. (Funded)
2. Development of a program for Washington state schools addressing "Shelter-in-Place". This program, upon completion, will have the endorsement of the Office of the Superintendent of Public Instruction, the Principals Association, Washington Association of School Administrators, WEA (Washington Education Association) and the Washington State PTA. The intent of this program will be to make sure each school in Washington state has the necessary materials and training to have an active "Shelter-in-Place" program. The goal is make sure that schools across the state are as knowledgeable of "Shelter-in-Place" as they are "Drop, Cover and Hold" for earthquake. Projected timetable one year. (Not Funded)
3. Teach 11 "ICS for Schools" class across the state in the nine regions along with two conferences within the next six months. Materials are in the process of development now and the first class should be on the ground in April. This program has the sponsorship of the Office of the Superintendent of Public Instruction, the Principal's Association, Washington Association of School Administrators, WEA, the Washington State Sheriff's Association, and Washington State PTA. (Funded)
4. Reproduce the "Shelter-in-Place" tri-fold brochure. (Partially Funded)
5. SERC/LEPC program will be highlighted in the April Disaster Preparedness Campaign. Materials will be available in late February. (Funded)
